The Akashic Experience: Science And The Cosmic Memory Field

Synopsis

Firsthand testimonies by 20 leaders in culture and science of their interactions with the Akashic field

- Provides important evidence for the authenticity of nonmaterial contact that human beings have with each other and with the cosmos
- Demonstrates that the increasing frequency and intensity of these experiences is evidence of a widespread spiritual resurgence
- Includes contributions by Alex Grey, Stanislav Grof, Stanley Krippner, Swami Kriyananda, Edgar Mitchell, and others

Knowing or feeling that we are all connected to each other and to the cosmos by more than our eyes and ears is not a new notion but one as old as humanity. Traditional indigenous societies were fully aware of nonmaterial connections and incorporated them into their daily life. The modern world, however, continues to dismiss and even deny these intangible links--taking as real only that which is physically manifest or proved scientifically. • Consequently our mainstream culture is spiritually impoverished, and the world we live in has become disenchanted. In *The Akashic Experience*, 20 leading authorities in fields such as psychiatry, physics, philosophy, anthropology, natural healing, near death experience, and spirituality offer firsthand accounts of interactions with a cosmic memory field that can transmit information to people without having to go through the senses. Their experiences with the Akashic field are now validated and supported by evidence from cutting-edge sciences that shows that there is a cosmic memory field that contains all information--past, present, and future. The increasing frequency and intensity of these Akashic experiences are an integral part of a large-scale spiritual resurgence and evolution of human consciousness that is under way today.

Book Information

Paperback: 288 pages

Publisher: Inner Traditions; Original ed. edition (February 12, 2009)

Language: English

ISBN-10: 1594772983

ISBN-13: 978-1594772986

Product Dimensions: 6 x 0.9 x 9 inches

Shipping Weight: 13.6 ounces (View shipping rates and policies)

Customer Reviews

Ervin Laszlo published what he subtitled "An Integral Theory of Everything" in his book: Science and the Akashic Field in 2004. He followed this up with "Quantum Shift in the Global Brain" in 2008 and I have reviewed both of these excellent books. Now he has published "The Akashic Experience" subtitled "Science and the Cosmic Memory Field", which adds to the ideas presented in the earlier volumes by presenting accounts by some twenty individuals of widely forms of what Laszlo has dubbed the Akashic Experience: near-death experiences (NDE); premonition; remote viewing and healing; and many other psi phenomena. "An Akashic experience is a real, lived experience that conveys a thought, an image, or an intuition that was not, and very likely could not have been, transmitted by our senses either at the time it happened or at any time beforehand - at least not in our current lifetime." Laszlo's ideas integrate ideas such as those of Talbot (The Holographic Universe); Dean Radin (Entangled Minds); Russell Targ (Limitless Mind); and concepts from Buddhism, all forms of spirituality and modern research into quantum physics and into the nature of consciousness. What others have called the matrix, the implicate order, tao or the zero point field, Laszlo integrates into the concept of the Akashic Field: "The Akashic Field contains not merely a passive record of a person's consciousness, created during that person's lifetime and then persisting unchanged, but also harbors a dynamic bundle of information based on the experiences accumulated in that lifetime. Under suitable conditions this bundle of information - a quantum hologram - is capable of development even in the absence of the living brain and body that created it.

Sheldon Stoff The Western Book of Crossing Over: Conversations with the Other Side The Akashic Experience: Science and the Cosmic Memory Field is a remarkable book of Ervin Laszlo's own commentary combined with lengthy statements by individuals who have had insightful "Akashic experiences." Laszlo has succeeded in accomplishing two objectives. He has provided a basic definition of what the Akashic experience is by bringing to the fore the latest scientific information on the subject. And he has provided us with many detailed personal stories of the experience by skilled individuals, thus bringing theory, science and daily life together. The book is a wonderful package which includes recognition of the Akashic, whose existence was recognized by Hindu sages 5,000 years ago and by the Kabbalah, also thousands of years ago. Science finally turns to authenticate what has been a major part of our lives since before the dawn of the universe. Laszlo has done even more. He has shown us conclusively that the Akashic is the originator of all that is and the source of information of all that has occurred. If humankind can utilize this information positively and

productively, a new age of enlightenment will follow.
