Customer Reviews

Chemistry... This is one tough subject! But, amazingly, this book has done it justice. I think this is such a comprehensive book that will help Chemistry students out there in understand more this complex subject. The topics here are all relevant in making the study more effective too. Topics like

the Components of Matter, Stoichiometry of Formulas and Equation, Gases and Gas Laws, and so much more. Yes, this book is the book to read if you need help in these relevant topics.

I read reviews and decided to buy it. For the price, it honestly couldn't even be considered a loss in the worst case scenario. I received it within the two days and so far am really satisfied with this purchase. So far, so good. I will update my review at the end of my semester.

For those who'd like teach chemistry in detail,I recommend this book for student as well as everyone who is interested in reading about themes like, Quantum Theory and Atomic Structure,Chemical Reactions was my recommendation for you.
