Veterinary Dermatology: A Manual For Nurses And Technicians, 1e

Synopsis

Dermatology is a complicated subject that is rarely covered from a veterinary nursing perspective. Nurses deal with dermatological problems on a daily basis and are called upon to advise owners on pet skin care but until now there have been no texts written specifically to meet their needs. Dermatology in Veterinary Nursing fills this gap. From simple identification of parasites through to client advice and guidelines for effective clinical examination, Frances Gaudiano has provided a comprehensive guide for the veterinary nurse. Presents dermatology from a veterinary nursing perspective. Advises on how to ensure client compliance in treatment regimes. Covers skin disease in both companion animals and exotic pets. Demonstrates how to run effective nurse clinics. Covers the syllabus for Diploma courses in veterinary dermatology.
