Finally, after waiting this long we have the fifth of the Order books detailing the 'leader' faction for Mage: the Awakening. And it's about time! As with the other Order books, this one serves to flesh out the Silver Ladder, who seek to ultimately guide humanity to the powers that are their birthright. As opposed to the other Orders, the Silver Ladder (at its best) believes magic is inherent to humanity. Wonderfully, it expands them beyond their stereotype of 'leaders' and emphasizes their heritage as priests, viziers and philosophers of the Awakened, giving players and STs alike lots of new possibilities for using this Order. The book opens with the history of the Silver Ladder, from their early days as the philosopher-priests of Atlantis and the Five Kings who (they claim) established the Paths, to their embrace of the British Empire during the age of colonialism. From there, it goes on to explore the role of the Silver Ladder in different corners of the world, from businessmen in Brazil to progressive Muslims in the Middle East to humanitarian aid in Africa. The second chapter explores the beliefs and practices of the Silver Ladder, including the Elemental Precepts, their political structure, magical law, roles and status within the Order, and Path roles. It also explores the Silver Ladders relations with other Mages and, more importantly, mortals! Better, it includes rules for

Cryptopolities (secret societies under the Order's influence), new Proximi rules, and even Sivler Dynasties (entire families of Proximi!). In chapter three, we are given information about the Silver Ladder's recruitment, initiation and even conversion of other Mages, including the tests and lessons that neophytes must learn.
