Customer Reviews

Exactly like it says in the description. A list of all Clive Cussler books in various listing formats. Very helpful if you want to read just a particular series in order or you want to read all his series in order of when they were published.

So many books! It helps a lot to track them

I love Clive Cussler...and have read so many of his books that I've lost track of what I've read and what's still out there. This helps me keep track...it's a great idea.

Just what I wanted as I have read all of his books.
