Libellus Sanguinis 4: Thieves In The Night

Synopsis

"The Mad, the Wretched and the Unholy" The blood of Caine grants some majesty and beauty, but it drags others into shadows of despair. Their minds shatter, their bodies wither, their souls rot. But with the Curse comes power, and in the depths of ruin lie the greatest secrets. "They Watch, They Learn, They Know" This last of the Books of Blood reveals the secrets of the Malkavian, Nosferatu and Ravnos clans in the Dark Ages. Each chapter shows you the hidden powers and terrible secrets of the clans that so many princes consider beneath their notice. Hidden cults and fearsome powers await within, if you dare step out of the light.

Customer Reviews

Three clans seem to stand on the very fringes of Cainite society. Not because they are lone wanderers like the Gangrel, nor because they follow a path of corruption like the Followers of Set. These Cainites are the margin simply because they are too difficult to control or deal with. The Ravnos follow a path that only the gypsy can fully understand. Nosferatu cling to the shadows, shunned due to their appearance. The Malkavian are avoided for they are fully mad and seek to know "Why?" By far these are three of the most difficult clans to play because of their marginality. This volume lets players know the deep intricacies of each clan and how each survives the Long Nights while being almost shunned by mortal, and Cainite. Ravnos are fueled with the blood of wanderers. They move where ever their winds or whims take them. To many they are seen as a

nuisance, or even worse as vagabond thieves that or only good for execution. How little they see this clan may be more closely knit than all others because of their treatment. How few notice these Cainites are everywhere. They can walk around as if unnoticed because all others wish to shun and avoid them. The Charlatans are masters at deception, and their section serves to illuminate the vast ability at trickery they possess. Their chapter holds not only more Chimestry abilities, but also a new background to help a Charlatan avoid prying eyes of mortal, Church, or even Cainite. Next are those atrocious looking Nosferatu. Each carries an ancient curse to twist their bodies into monsters while also twisting their hearts into something else. Nosferatu are the less seen and less understood of the thieves. They possess powers to communicate over distances that boogie the mind.
