Customer Reviews

This book contains a compilation of chants to be used either alone or when making your own spells and just can't think of the right words. They are written in an organized way so you can easily find the right chant.

As someone new to the pagan lifestyle, I found this book interesting and it led me to the conclusion that I should really make chants of my own for my own practice. These felt unnatural, but I'm sure that's more of a personal preference than anything. I did alter a couple of them to sound more like something I would actually say... added more of my own voice to it which helped a lot. :) This is a great book for the price for a beginner who wants resources and exposure to paganism.

I like how simple using this book is. I really enjoyed it the chants were calming. Thank you it is an enjoyable read.

This book had many useful chants but I felt it could use better organizing. At times it felt like Ryker as just writing the chants as they came to him instead of giving any rhyme or reason to his arrangement. Also, I think starting the book with love chants is going to turn many readers away as a lot of pagans either don't do love chants/spells or do not require them. I know there was a moment there where I wondered if I'd be able to grab anything useful because it all seemed geared towards love and I don't need love right now. Ryker's chants are simple and catchy but they are decidedly more Wiccan oriented than general pagan. This isn't bad just something a reader should know before purchase. It's a good collection now but it would be a great collection with some more organization and chapter headings.

This book wasn't exactly what I was looking for but I still find it very useful. This book has 1-2 stanza chants that range anywhere from love to cash or well-being to sickness.

I loved it all I am really into spells magic and chants awesome I recommend to everyone. especially if you're into studying magic these books do help you to get better.

I enjoy this book to the very end. lifted my mind, heart and soul. I can't wait to share it with my kids. very happy with it. thank you!

I liked the small easy to remember chants. good for all stages of chanting. Now if I can only learn how to work my kindle. hmmm
