Customer Reviews

This is mostly recycled adventures from first edition sources. I wish more of an attempt was made to link the adventures together and the experience levels are arranged a bit oddly. The beginning adventures appear later in the book. However, there is a good mix of materials including some classics and one or two hard to find scenarios. Overall, it is a good grab bag to throw at your group.

The adventures are a fun collection that can be used for Warhammer, or other gaming systems

(with lots of conversion). If you don't have first edition, this is a fun addition.
