Monte Cooks World Of Darkness (World Of Darkness (White Wolf Hardcover))

Synopsis

"The World of Darkness Re-Imagined This book includes a complete setting: a new vision of the World of Darkness. Characters play as vampires, mages, werewolves, demons, or Awakened. They wield frightening supernatural powers against their own kind. The world is the one we know, but now much darker: destruction in the central US, nightmares coming to life, and beasts roaming shattered cityscapes. Uses the most popular roleplaying game system in the world."

Book Information

Series: World of Darkness (White Wolf Hardcover)

Hardcover: 360 pages

Publisher: White Wolf Publishing (August 16, 2007)

Language: English

ISBN-10: 1588464679

ISBN-13: 978-1588464675

Product Dimensions: 8.5 x 2 x 11 inches

Shipping Weight: 3.1 pounds

Best Sellers Rank: #124,534 in Books (See Top 100 in Books) #5 inÂ Books > Science Fiction & Fantasy > Gaming > World of Darkness > General

Customer Reviews

This is a solid book. The background story is usable and works, though it is not the most innovative thing ever. What it is is a viable way to have a lot of different monsters running around together. Basically what you are looking at is the intrusion of supernatural creatures into our reality. This is an exceptional book for a GM that likes a lot of world building, designing their own societies, and just generally making a setting 'theirs'. This isn't for you if you want a complete campaign setting. It gives two suggestions for locations and gives some example stuff to them, but it is going to require effort. It isn't a 'complete' setting in the way some expect. It asks a lot of its GMs. But I think it rewards the effort with a unique setting that is yours and your players alone. But I'm not trying to take away from it. It's good. But you will need one of two other things: Other books for inspiration, or some serious creativity. But this book gives a great foundation to work with, it translates the World of Darkness varmint to d20 gracefully (and has some nice twists on them. Vampires and Werewolves in particular are pretty darn cool) and the magic system is GREAT. Seriously, if you like d20 it's near worth grabbing just to use the magic system. It's that good. Some of the art is good,

some mediocre, and there is a flat out bad picture or two floating around too. No kidding like 'wince worthy'. Most of it is OK. Now, there are a few things that irritate me. Mostly small. There's no proper character generation chapter, rather a good bit of it is handled at one time, with a good bit of scouring the pages to finish it off. Once you've done it one time it isn't so bad, but the first time is a bit rough.
