Kama Sutra: Kama Sutra Blackbook: Master The Art Of Sex Through Ancient Teachings

Synopsis

Expand Your Sexual Horizons with the Ancient Wisdom of the Kama Sutra! Are you fascinated by the Kama Sutra? Do you want to get started without having to wade through a dense, ancient tome? If so, Veronica White's Kama Sutra: Master the Art of Sex through Ancient Teachings is the book you've been waiting for! You'll discover all of the relevant information for practicing the Kama Sutra – right away! With this ancient Hindu sexual knowledge, you can dramatically improve your love life – and your sex life! How can this book help you become a better lover? Veronica also teaches you what the Kama Sutra says about sex – and why women must be knowledgeable about sex. You'll discover why –size matters–, your health and lifestyle affect your sex life, and how to maintain consent throughout the sex act. By mixing up your sexual positions, learning the keys of kissing, and understanding the stages of sex, you'll be well on your way to sexual mastery! You'll even learn a special, ancient Kama Sutra technique for mind-blowing female orgasms! It's time to revitalize and invigorate your sex life with Kama Sutra: Master the Art of Sex through Ancient Teachings

Customer Reviews

I've heard about Kama Sutra before but didn't really quite understand it yet. Now that I found this book, I feel that I'll be educated about it. I think this is such a helpful book. It is helpful because it gave ways on how to improve marriage life, especially in the aspect of sex or love making. Sex is an integral part of a relationship and I believe that it must be taken into consideration by both parties. Married couples should look for ways on how they can improve this aspect of their lives. This is

where this book enters the picture. The topics are also very helpful. It has explained what Kama Sutra is all about, there are also facts about, and then the sex positions as well. Plus of course there are so much more! This is worth all the time reading it!

This book provides us with the in-depth information regarding what exactly Kama Sutra is. The ancient teachings of sex and love have much to teach us, especially in a day and age where we have become increasingly disconnected from one another. This are extremely important and can be very beneficial in a lot of ways. The Kama Sutra provides an ideology that we can apply in order to be better at sex. This is more than sex positions, it involves detailed and specific tips regarding what to do during sex, and information about how we can better seduce a man or a woman. It also involves living a lifestyle dedicated to virtuous and prosperous living, and freely enjoying life's sexual and sensory pleasure. I highly recommend this book.

This book is very informative! I understand better the meaning of Kama Sutra which is actually far from the common connotations attributed to it for many years, which is mind-blowing and weird sex positions. In fact, Kama Sutra is not only about mind blowing sex, but as Veronica White said in the introduction, "it is a total mindset and a way of life to which both partners should be committed if they are to reap all the benefits that the Kama Sutra has to offer. In short, Kama Sutra is about making love right! I recommend this book to those who feel detached or cold in their relationship as it talks about the journey of love from courtship to sex to after sex which might spark that loose wires again. Kama Sutra is about giving pleasure and always thinking about your partner's comfort and emotions among anything else. Moreover, this book includes different sex positions and tips about foreplay which are helpful to couples who are looking for additional spices in bed.

One the oldest texts is on the topic of sex and love. This is the only ancient text which provides diagrams, and specific instructions on how to improve your sex life immensely. From the different stages of sex, all information on how to become a better lover is laid out in these pages. Perhaps the most interesting chapter is on foreplay. Every small detail plays a role to reach high levels of intense sex. The Kamasutra positions sure have strange names like the toad, yawning, clasp, nail fixing, splitting bamboo, crab, presser, cow position and the list goes one and on. I definitely recommend this read to anyone interested in the topic of Kamasutra, or just looking to improve their sex life.

I was completely new to the whole kama sutra, but reading this has improved my sex life a lot. It was a very intriguing and thought-provoking read and I am very much impressed by the lesson taught by this book. This book will teach you everything of all sex related things that you want to know. I think in our busy and hectic lives we forget how meaningful and important that factor is in a relationship. Simple and loving touching can do wonders to boost self-esteem and endorphins. These ancient texts allow us to be the best man and woman or husband and wife for each other. I am loving this book and thanks to the Author for such a book, book for all couple who want to enjoy intimacy in life.

This is a relatively concise book that deals to explain Kama Sutra in a most comprehensive manner. It has thoroughly explained the aspects of Kama Sutra in the light of being an art of lovemaking. I have learned that Kama Sutra as an ancient teaching is the ultimate way to express one's desires in the sacred act of celebrating love. This is very interesting since it entails better performance that guarantees utmost pleasure for both man and woman who are involved in such act. Although there are no illustrations on the lovemaking positions of Kama Sutra in this book, I find them more intriguing in the way they are described in this book. All these descriptions might serve as challenges to the reader's imagination. Thus, they offer more substantial patterns in exploring such lovemaking positions of Kama Sutra.

This is an informative book. I think it is also educational since I learned a great deal here about the different positions that couples can go for when they want to improve their intimate relationships. The only thing I did not find here, though, is a picture for each position. It would help make each position clearer and more comprehensive. But the overall help of this book is something to be appreciated.

I've looked for and seen dozens of books claiming to be the "genuine" Kama Sutra, but this one is the closest I've ever come to the real deal. This book was designed to heighten pleasure from both a man's and woman's perspective. Easy-to-follow explicit positions, each beautifully illustrated and step-by-step instructions. From slow and gentle to fast and intense, the positions fulfill every mood and sexual need. A book that couples will want to keep by their bedside tables and refer to again and again
