I run into this while searching for book about meditation and the like. I somehow got curious about this matter (plus the front cover is interesting =)). The author did great in detailing the how to open the third eye chakra. The explanation on the awareness of what really is the Third Eye made sense. I brought me a certain consciousness and actually tried to do the stuffs mentioned in the book while I actually read the parts. It was also amazing that some scents are capable of helping in the awakening of the third eye. However, in doing so, one must be ready to the gift that comes along with the awakening of this chakra. The choice of words by the author can be easily understood as I try to imagine what was written. The book is concise and factual. This book is definitely a good read for those who are interested to such topics like me.

Such an informative and helpful book. If you want to recharge yourself physically, mentally, spiritually and emotionally this book is the best. A good source of motivating ones self. I am glad I got this book, I will really apply this to myself and willing to share it to my families to gain same benefits.

Awakening the third eye increases clarity, concentration, imagination, and intuition. It represents the connection between physical and spiritual worlds in many cultures and traditions, as well as the Ajna Chakra, the sixth primary Chakra in yogic philosophy. However, if a person is not taking care of their Third Eye, all of these benefits and abilities are diminished. Great book!

The third eye awakening is known as the sixth chakra where you really listen to your inner voice and intuition. This helps you with making clear decisions for you to reach your true purpose and mission in life. This book was pretty informative and descriptive in how to achieve this inner power in all of us. I think tapping into this inner self is extremely powerful. Good read.

A good and interesting book. Each of us has a third eye. All that is, to activate, to wake him so that he began to work (opening the third eye). And there are ways of development of extrasensory perception. I recommend to read.
